17:15 Depart Shipyard for Belize City
19:00 Arrive at Hotel in Belize City at 8.00pm that's OK
Registration (we will try to register as many people as possible then)& Cocktails – CPA
– Robert Best

You have to decide if you want to arrange this formally. You can also do it informally to have less but more serious people visiting. Remember you will learn from the questions and comments. Normally competing industry members from the same country do not visit competing operations. You need to think how you can arrange for visits to both sets of operations... may be on two different days. Remember several of these countries have AI or END so you should not have anyone stop by your live production operations (breeder, layer, boiler farms or hatchery) (perhaps to a broiler house before slaughter and total clean out) but you may take them to see from a big bus where you can explain the operation from outside

- Farm Store
- Reimer Feed Mills & Corn Fields
- Dive by Broiler Breeder Farm, Broiler Farm & Feisien Hatchey
- Quality Poultry Processors

Funded by: Lets start keeping track of who is doing what

CPA Members
